FOR THE LOVE OF SEWING

CENTURIES OF HAND-STITCHED TRADITION

Beautiful Hand-Stitched look from Baby Lock

I've been doing some kind of sewing for as long as I could hold a needle and thread. My first experience with a Sashiko-like stitch was on my grandma's quilts. For anyone who has seen the hand-stitching technique known as Sashiko, you'll be amazed that there's a machine that can replicate this distinctive stitch. This sweet, simple, but elegant stitch can embellish almost anything. From garments to home décor to quilting - once I get started with this machine I can't stop.

Precise Sashiko Stitches

A specialty needle working in conjunction with a latch wire system forms defined stitches and precise spacing to create a true hand-stitched look.

Free-Flow Sewing

The adjustable presser foot height allows ease of turning fabric, stitching circles, squares and other shapes for complete control.

Single Stitch Function

Complete control of stitch and spacing is essential for decorative techniques such as braiding, couching, cross-stitching and adding trim. Now with the specialty stitch function, a complete cycle of one single stitch and space allows the control you need when single stitch sewing is desired.

Stitch Length Control

Create short or long stitches ranging from 2mm to 5mm using the adjustable lever.

Stitch Spacing Control

Create short or long spaces with adjustable spacing from 2mm to 5mm.
